## MEMORANDUM FOR DIRECTOR OF CENTRAL INTELLIGENCE

SUBJECT: Collection/Production Imbalance (U)

1. (C) I am concerned with the gross imbalance of resource application in intelligence. There is a disparity between the resources dedicated to the functions of collection and processing and those of analysis and production. Correction of this imbalance within DoD is one of the major goals which I have established for the DIA, and I have so informed the Secretary of Defense.

2. (U) An initial attempt by DIA has demonstrated that the problem cannot be properly evaluated on an individual departmental basis, but needs to be addressed by the Community as a whole. I propose, therefore, that you establish an Interdepartmental Task Force to examine the nature and extent of the existing imbalance and to recommend possible means of rectifying it. The Task Force should represent the full spectrum of community efforts and should contain an equitable mix of experienced collection and production personnel with close contacts in the policy-making community.

3. (U) DIA welcomes the opportunity to further define the issue and is ready to serve on the Task Force.
